

☐ Arable

☒ Cloud-Based

☐ Secure

☐ No Manual Backups

Field records, spray logs, NVZ compliance, and grain storage — without the paperwork mountain.

Structure your compliance records correctly from day one — NVZ nitrogen balances, spray records with LERAP assessments, and grain storage all in one digital platform.

KEY FEATURES

- ✓ **Spray Records in the Cab**
Operator, product, MAPP number, batch, area, rate, and weather — captured at the point of application.
- ✓ **NVZ Compliance Tracking**
Field-level N-balance calculations, closed-period calendar alerts, and organic fertiliser logs.
- ✓ **Grain & Crop Storage**
Stock movements, pesticide treatments, merchant storage charges, and periodic stocktake records.

Field & Crop, Spray Records, and Grain Storage · single farm holding

Free 30-Day Trial

No credit card required

FIELD EVIDENCE, READY WHEN NEEDED

Manage every field operation without losing the audit trail.

Make day-to-day recording quicker while keeping NVZ, crop assurance and storage evidence clear, complete and easy to retrieve.

Field and crop history

GPS boundaries, crop plans, soil records, field applications and harvest information in one place.

Spray confidence

Capture products, rates, operators, weather, LERAP and COSHH details at the point of work.

Grain and machinery

Track storage movements and maintain the inspection and service history behind your operation.

Build your arable setup around your rotation.

Start with the modules that matter to your farm, with a free 30-day trial.
