

 Beef & Dairy Cloud-Based Secure No Backups

Complete cattle compliance — from movement records to milk statements.

TB testing, BCMS movements, medicine withdrawal periods, and Red Tractor audits — all in one platform, accessible from the office or the parlour.

KEY FEATURES

-  **TB Test & Reactor Tracking**
Test dates, read dates, reactor records, and automatic re-test reminders in the farm planner.
-  **Withdrawal Period SMS Alerts**
Automatic alerts fire before any medicine withdrawal period expires — for every treated animal.
-  **Dairy Performance Analytics**
Milk yield trends, bulk tank ABR, somatic cell count charting, and monthly statement uploads.
