

[Agricultural Contracting](#)[Cloud-Based](#)[Secure](#)[No Manual Backups](#)

Job cards, invoicing, equipment compliance, and customer management — for contractors who run a professional operation.

Produce professional invoices from the field, track all equipment maintenance, and build a compliance record that wins contracts and retains them.

KEY FEATURES

- ✓ **Field-Level Job Cards & Invoicing**
Capture field names, areas, and operations, then issue a branded invoice in under two minutes.
- ✓ **Equipment & Workshop Compliance**
PUWER inspections, service history, NSTS calibration, and MOT tracking for every machine.
- ✓ **Customer Management**
Farm customer directory with contact records, job history, outstanding invoices, and payment tracking.
