

 **Mixed Farming** **Cloud-Based** **Secure** **No Manual Backups**

One platform across every enterprise — livestock, arable, and everything in between.

Every module shares the same farm calendar, staff directory, and holding data. No double entry, no switching apps — just one complete record of your whole farm.

KEY FEATURES

-  **Modular & Scalable**
Start with what you need and add modules as your business grows — livestock, arable, or both.
-  **Unified Farm Calendar**
Tasks, compliance deadlines, and staff assignments across every enterprise in a single weekly view.
-  **Single Audit Trail**
Every record in one place, correctly structured — ready when Red Tractor or an inspector arrives.

STARTING FROM

£70 /month

Typical beef-and-arable setup · every module shares the same farm data

Free 30-Day Trial

No credit card required

ONE FARM, SHARED INFORMATION

Keep every enterprise working from the same plan.

Coordinate livestock, field and machinery records without creating separate calendars, people lists or piles of duplicate paperwork.

A shared farm planner

See deadlines and planned work across all active enterprises in one clear calendar.

Resource planning

Plan labour and machinery across competing jobs before a busy day turns into a conflict.

Connected performance

Compare enterprises with consistent records while keeping compliance evidence joined up.

Bring the whole holding together.

Choose the modules that fit each enterprise, with a free 30-day trial.
